Offer description

Empower Learning Hub offers schools, parents and councils within Leicestershire and surrounding areas a bespoke, child centred educational programme with the core intentions of engaging and immersing pupils in their developmental journey and re-integrating children back into mainstream. With over 20 years experience within schools, particularly the SEND sector, we understand the challenges that our children face within mainstream education and not having the resources to provide some students with a more individualised education. Our programme offers those that may find mainstream a challenge something different, an adaptable curriculum with small class sizes offering a more personal approach to learning. Our proven programmes engage students in an educational environment that immerses them in their learning, helping to address developmental and academic gaps to give them the best possible opportunity to progress at a pace that works. Fully qualified Teachers and Higher Level Teaching Assistants bring our curriculum to life, with carefully planned lessons, to extra-curricular activities, our varied day offers fulfilment and enjoyment, empowering our children's learning journey. We pride ourselves on empowering young people to develop and take ownership of their educational journey.

Offer for English and Maths

We work alongside the National Curriculum and also offer support with children in Year 6 completing their SATS.
