

1. Name of Organisation: Goldhill Alternative Provision
2. Please describe your organisation: Goldhill Alternative Provision is a project to offer an exciting alternative for young people who are not engaging within mainstream education. Goldhill has the unique attraction of being situated in an adventure playground, offering break out areas for young people who prefer more space to learn. Goldhill Alternative Provision has been formed through the incredible work of Goldhill Adventure Playground, where for the last 45 years, outstanding services have been offered within Leicester and Leicestershire. Our objective is to challenge pupils to take responsibility, modify their behaviour and improve attitudes towards life while developing social inclusion, self-esteem and life skills while inspiring them to re-engage through personalised timetables. Our approach is totally young person centred as we believe with the right relationships and the right environment behaviour and attitudes can be positively impacted. Our mentoring approach comes from the WDEP Framework and the choice Theory Model with our staff continuously updating their skills and knowledge. At Goldhill we can offer ASDAN short-courses, key steps and life skills challenges along with an outdoor approach to learning encouraging young people to enjoy and connect with the wild. Goldhill will also offer vocational skills and opportunities in sport, team building, drama, outdoor climbing, basic food preparation, arts and crafts, music, gardening, and construction skills. All of this is offered and situated on 1.5 acres of pleasant and mature woodland with an imaginative and impressive range of adventurous structures. Spread over four buildings, the site offers study areas, classroom, kitchen, art room, sensory area, 3G football pitch and indoor recreational space with disabled access throughout.
