

Anstey Alpacas Mr Matt Rogers - Owner

Name of Organisation: Anstey Alpacas

Please describe your organisation: Single Provision

Age Range of provision: 11-18

Please tell us about costs per: £65 per day Five students per day

Please describe your offer. I: Working in partnership with schools in Leicester and Leicestershire, Anstey Alpacas teaches and supports young people about the various aspects of rearing and caring for livestock as well as growing and producing fresh fruit, vegetables and flowers. Anstey Alpacas ambition is to provide young people with a different and alternative experience to what they may receive in a school and classroom environment. Students have the opportunity to vaccinate, groom, train and carry out the general care of the animals that we have. The educational work that we offer can contribute towards BTEC Level 1 & 2 in Animal Care. Away from the animals the young people learn about vegetables, fruit and flowers and how the different seasons affects the different produce. From sowing the seeds and nurturing the young plants through to picking the crop the young people will learn how to manage the soil and weather conditions. The young people also have the opportunity to take home the produce that they have grown.

Please describe any offer that: No qualifications offered. The provision is aimed at supporting students therapeutically.

Who should we contact, name: Mr Matt Rogers - Owner

Address and post code: Anstey Alpacas, Bradgate Road, Cropston, Leicestershire LE7 7HE
